

The Essex Dental Clinic – April 2020 Newsletter and Covid 19 update

We hope that this newsletter finds you and your families well in these uncertain times. Please remember we are still here for you, even though the practice remains closed for all routine dental care.

Emergencies

Should you have a dental emergency please call the practice on 01787 222828. We can arrange telephone or video consultations. We can also give you help, advice and antibiotics if necessary.

Urgent Dental Care Centre

Six Urgent Dental Care Centres have been set up in Essex for patients with dental problems that cannot be managed by their normal dental practices until the Covid 19 restrictions are lifted. Our practice has been chosen to be one of these centres, only treating patients who are isolated, vulnerable or being shielded from Covid 19. Louise McAllister is one of the triagers for these dental emergencies, covering Essex and East Anglia.

Practice Plan patients

Please be reassured that we shall endeavour to fit your usual number of appointments in over the year. Therefore, your hygiene appointments may be at slightly shorter intervals and we will prioritise these appointments when we are able to get back to work normally. This will give your gums and mouth a bit of a boost.

Practice Plan patients also continue to benefit from not having to pay for any emergency fees.

Dental products

Should any of you be running out of your usual tepe brushes or your usual dental products, please don't hesitate to contact us, Monday-Friday 9am-5pm on 01787222828.

We will be able to post out, or you could drive by to collect, whatever dental products you may need.

The safety of our patients and members of our dental team remains of paramount importance.

Please Stay home, stay safe and help us stop the spread to protect the NHS.

Thank you.

With Best wishes from Louise and the whole team at The Essex Dental Clinic
